TU Graz Life Long Learning

Life Long Learning stands for research-based continuing education courses with a focus on practice.

»We design our courses by focusing on the needs of our target groups and developing innovative subjects and formats to meet those needs.«

iMooX.at

iMooX offers freely accessible and openly licensed online courses on various topics.

»Our goal is to make university-level educational content accessible to a broad section of the population and to allow as many people as possible to further their education.«

Top-level continuing education

Professionals participate in a targeted continuing education course with personal support and receive a certificate issued by an Austrian university.

Microcredentials – compact courses for professional settings

- Expand your knowledge in a targeted subject area.
- Obtain a certificate from an Austrian university.
- Have your certificate recognised by other universities.

Find the right course now at microcredentials.at

Course schedule

A Microcredential is composed of three phases:

- 1 Foundations self-study**
Acquire the essential knowledge in an online course on one of our partner platforms – flexible in time and space.
- 2 Guided units & exercise**
Based on the online phase, expand your knowledge in course units with the personal support of experts in the respective subject areas.
- 3 Certified completion**
Upon a final assessment, you will be issued a certificate by an Austrian university, which can also be recognised by other universities.

Example workload
